The relationship with the citizen and the working method

Access to all services and benefits and socio - health occurs through the **social cage**. Here the citizen receives **information and guidance in relation to the network of social services and social - health care and support to administrative jurisdiction**.

Speaking at the desk, in addition, the public may make contact directly, or by appointment with **the Social Worker**.

The assumption is realized in social assessment by the **Assistant Social** conditions and needs of the person and his family, multi-dimensional profile, the definition of programs to accompany, support, rehabilitation, rehabilitation and social integration, and ,finally, in the performance tests.

Each project, its implementation necessarily requires sharing with the person with his family takes special care resources, the critical moments of life as contributing factors, and after the social and economic context that led to the needs and opportunities that can benefit.

Children, Adolescent and Family

Realizes social Piedemontana establishment interventions and consultancy services, promotion and support for parents and families with children residing in the municipalities of Collecchio, Felino, Montechiarugolo, Sala Baganza and Traversatolo. These activities are intended to support parents in their educational tasks and help them deal with the difficult moments of life through family interventions:

- Reception, information, guidance
- Listening and counseling
- Educational support relational
- Protection and protection of children and their families
- Promoting initiatives on issues of specific interest

GROW AND COMPARISON WITH OWN CHILDREN

II Social Work, networked with the Educational Services of Commons, with services for children from establishment Us1 with Clubs and Educational Institutes, promotes and supports.

- **Points of Listening to Children and Parents** with children up to 14 years offering

advice and initiatives for discussion groups on the subject. In support of children, adolescents and their families are offered, initiatives that develop mainly in the leisure-oriented socialization, recreation, participation and social advancement, the affirmation of self.

LIVING THE COUPLE AND THE FAMILY

The separation and conflicts of interest, sometimes, the pair is a very complicated for parents and children, but surmountable if children and young people feel that love and responsibility of parents towards them is not affected.

- The Family Mediation is a consulting service offered to all parents who so desire it. Enter into voluntarily, free of charge and the route is reserved.
- Specific support to families single parenting
- Collaboration with the Family Counseling

GROW IN A CONTEXT THAT listen, ACCOMPANIES, respects and protects

- **Protection of Children and Social Protection**

The protection of children is ensured through different types of Intervention counseling and educational interventions for economic support at home, to help temporary teachers for adults and children, psycho-social support and, in cases of particular gravity and urgency, temporary removal of children from their family.

- **The entrust Family**

The family offers to entrust children and adolescents, whose family lives temporary situations of serious difficulties, an environment that can ensure security, cultural and emotional stimuli, and maintain contact with their family of origin. Charged with couples may be with or without children, married or cohabiting, individuals willing to accept the child into their family. The Service promotes social-educational discussions of knowledge and information with people who are willing to entrust one offers Charged with its technical and financial support, adjust the relationship with the natural family.

- **The Adoption**

For couples interested in the adoption is important to prepare and support for parenting that matures through different situations than those living. The positive development of the trail that a couple faces aspiring to help avoid painful failures, For this reason, the Social Services organize, before the legal - evaluation meetings training / information addressed to the prospective adoptive parents.

Social Pedemontana establishment supports the elderly and partially self-sufficient and their families through various types of intervention:

- Home care
- Meals at home, laundry, Remote assistance
- social status, daily
- controls and nursing
- social Taxi
- Access to integrated network of services (house procedure for the seniors, RSA, Admissions of relief).
- Supporting housing requirements.
- Help and support for administrative (civil disability, home).
- Legal protection - legal.

social Pedemontana establishment, its operators are involved in the operation of one of the most important services of the whole network: the Elderly Service (SAA) and in close connection with the establishment realizes the integration Use Socio-Sanitaria. Belong to the disciplines and nursing. This is the most important, among other things, the payment of allowances to care, the definition of the rankings for access to residential places approved by the Health Service. The services defined accessories, but no less important, such as transport and Accompanying, are also paid by the consolidated thanks to a collaboration with the Association of Volunteers.

- **Remain at home**
The establishment produces various intensive interventions in the homes of elderly and partially self-sufficient with the aim of enabling them to live as long as possible in their own living environment.
- **Home care**
